KASA Leadership Institute, July 19th 2012

Network Info-structure

- Your school or District needs to have a wireless info-structure that can handle the demand that these wireless devices will use.
- The network needs to have a private cloud for students to save work and it needs to be integrated into public access for students to access from home etc...

Keys to Finding Education Apps

- Engaging
- Curriculum
- Easy to use
- Stable
- Flexible
- How often it is updated
- Are there images and text together

Cont. Keys to Finding Education Apps

- Immediate feedback
- Cover the grades and content areas
- Varying difficulty levels
- Integrates with cloud technology

Apps

- You do not want to have too many apps on any device that students will have access to.
- You should set up your device so only the apps that a particular group will need are available.
- Too many and the students are distracted and will play with the different apps.

Apps Continued

- Keynote
- Pages
- Numbers
- Docs to Go – Office Suite
- PDF Reader Pro Edition
